

Demolition Decontamination Recycling

Annual Convention 2022

June 9 – 11, Paris (FRANCE)

Organized by

In partnership with

www.europeandemolition.org/convention

Bonjour Paris!

European Demolition, Decontamination and Recycling EDA Annual Convention 2022

After the Study tour to Japan in 2019 and the two years we have had to be apart, the European Demolition Association is eager to bring together again its members and stakeholders from the DDR industries to organise the **reunion of colleagues and live an unforgettable experience.**

From 9 to 11 June 2022, Paris (France) will host the EDA Annual Convention with the collaboration of the French Demolition Association, SEDDRé, and the European Decontamination Institute, EDI.

Don't miss the event of the year organised by and for the professionals of the DDR industries in which there will be a combination of **professional contents, exhibition, networking opportunities and leisure activities...** and all this in the stunning *City of Light*.

We look forward to meeting you in Paris!

Francisco Cobo
EDA President
